

**When the project of building a stable at the State Capitol was proposed to my mother at a Rosary Rally, I knew I was called to take the opportunity. After months of planning and help from Troop 419 Scoutmaster Mr. Edward Denning, Mr. Jason and Annie Witt, and special architectural advice from Mr. Tom Melcher, the project's construction was under way. Thanks to the help of Connor Horne, James Stewart, Joshua Baker, Mr. Tom Melcher, and constant steadfastness in assistance from my father, Tom Smith, the stable was completed. In the completion of the project, I learned the skill of project management and the value of proper planning and execution while being able to promote my faith on a broad level. I would like to thank all those individuals and businesses who donated: St. Monica's Knights of Columbus, O'Rourke Family Dentistry, Laarhoven Designs, A&E Construction, and Georgia Advisory Group.**

**Patrick Smith,**
